KNX

40+ Export Countries

100+ Expert Technical Team

As EAE Technology, we provide innovative and value-added solutions for KNX applications. All our products are designed, developed, manufactured and tested in our headquarters in Istanbul, Turkey. EAE Technology products are in compliance with international open standards such as KNX, DALI, TCP/IP and WiFi.

EAE Technology is a member of KNX Association and an authorized KNX training center since 2012.

The logo features a stylized 'G' icon on the left, composed of a blue square frame and a white 'G' shape. To the right of the icon, the word 'MIOLA' is written in a bold, white, sans-serif font. Below 'MIOLA', the words 'TOUCH PANEL' are written in a smaller, white, sans-serif font. A small cluster of blue dots is positioned between the icon and the text.

MIOLA
TOUCH PANEL

With Miola Panel, you can easily control your home!

You will be able to receive all the notifications you specify and want to receive from the mobile application, and you will be able to easily learn all the details you follow with the push-notification feature.

Thanks to the Cloud server, you will not need an extra server!

Cloud Server

Thanks to Peer to Peer connection, SIP calls are made directly between devices without the need for a SIP server.

Intercom Call on Mobile

Intercom calls which are not answered from the panel are directed to mobile devices. Call on Mobile feature makes you sure that your guests will never stay at the door!

Intercom

You can use your Miola touch panel to communicate with outdoor intercom units and open apartment doors.

Push-Notification

Any information sent to the panel or created on the panel can be sent to mobile devices as a notification even if the application is not in the background.

Mobile Integration

Manage lighting, climate, blinds, alarms, intercom, with your mobile devices.

You can do anything you do with touch panel with using your smartphone.

In-built temperature sensor...

It is optional to have in-built temperature sensor on switches.

Touch operated design...

Precision detection for glass and metal surfaces.

Brushed metal surfaces...

Rosa brushed metal thermostats contain 4 different color alternatives as natural (silver), gold, bronze and anthracite

Unbrushed metal surface option...

Rosa Pictus metal series provides unbrushed, sleek surface option.

Various color option...

5 different color options for Rosa Pictus
4 different color options for Rosa Metal

All in one...

Rosa offer switching and thermostat function controls from one point.

- Lighting
- HVAC Control
- Shading
- DND/MUR
- Scene Call

Frameless design...

85 x 85mm frameless design

Unlimited color options for glass series...

All RAL codes can be applied

Independent programmable buttons...

Each fold can be programmed as independent buttons.

High quality raw materials...

7000 series aluminium is used for Rosa switch & thermostat.

«rosa metal

Additional Heating & Cooling...

In built temperature sensor is used for Rosa serial.

Rosa thermostats have automatic heating/cooling change-over function. Additional heating/cooling units can be jointed to the system.

4 mm tempered glass...

Conductive material coated glass surface is used for Rosa crystal & Rosa solid.

«rosa solid «rosa crystal

Status LEDs...

Users can check the status of lighting, shutter/blinds and air conditioners in their living spaces with status LEDs.

Navigation LEDs...

It is easy and safe to reach your thermostat or switch in dark with the navigation LED on Rosa.

Customizable icon options...

Rosa offers customized icon options for glass and metal surfaces.

Solid surface option...

Rosa Solid series provide different appearance option for glass with its non-discrete buttons.

rosA THERMOSTAT TECHNICAL SPECIFICATIONS

- Can be configured with ETS5.
- Serial thermostat with metal and glass touch-button
- Temperature control via digital LCD
- Internal temperature sensor (°C/ °F)
- Adjustable fan speed (1, 2, 3, Automatic)
- Multiple operation modes (Comfort, Night, Outdoor, Indoor)
- Fully automated operation feature (hot-cold transition)
- Control of all HVAC units including VRF-VRV and air conditioning devices
- PI relative, PI on-off (PWM), On/Off, Fan coil, Split unit controls
- Easy installation to 60x60 mm standard switch junctions
- 2 dependent or 4 independent programmable buttons can be programmed for various functions.
 - Switching,
 - Dimming,
 - Shutter/Blind control,
 - Value and priority assignment,
 - Scene control,
 - Status notification LED

Protection type	IP 20	EN 60529
Safety class	II	EN 61140
Supply	Voltage Range	21-30V DC, Supply from EIB/KNX line
	Supply voltage	<10 mA
Temperature	Operating	-5° C + 45° C
	Storage	-25° C + 55° C
CE	In accordance with EMC guideline and low voltage regulation	
Case type to be used	60mm flush-mounted and surface-mounted safes between two mounting screws according to European standards	

Dimensions (mm)	a	b	h
1 Fold Thermostat	85	11	85
2 Fold Thermostat	85	11	85

Assembly Detail

Important note!
The optimum distance between the two thermostats should be at least **120 mm** from center to center.

Certificates

EAE Technology products are and will always be in compliance with international open standards such as KNX, DALI, TCP/IP and WiFi.

KNX is the worldwide standard for home and building control. KNX offers at the same time the reliability of a consolidated system, market leader for over twenty years. (470 KNX Members, 8000 Products, 470 KNX Training Centers, 83000 KNX Partners, 190 Countries)

DALI (Digital Addressable Lighting Interface) is a protocol for digital lighting control that enables the easy installation of robust, scalable and flexible lighting networks.

EU rules restricting the use of hazardous substances in electrical and electronic equipment to protect the environment and public health.

This standard is based on a number of quality management principles including a strong customer focus, the motivation and implication of top management, the process approach and continual improvement. These principles are explained in more detail in ISO's quality management principles.

The EAC certifications are issued by independent EAC certification bodies and their laboratories accredited by the relevant agencies of the five members of the EAC Economic Union: Russia, Belarus, Kazakhstan, Armenia and Kyrgyzstan.
